

MIDLAND BT PRO SETAPP

Configuration and pairing to your BT device

STEP 1: DOWNLOAD THE SOFTWARE TO UPDATE YOUR BT UNIT

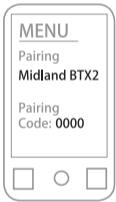

Download the latest software available on www.midlandeuropa.com in the **Support** section; you have to search the link to your model device. With the new software, you can **update** your BT PRO or BT PRO S unit to the latest firmware version.

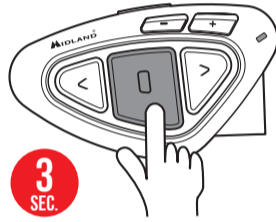

STEP 2: DOWNLOAD THE APP ON YOUR SMARTPHONE

With your smartphone, go to **Play Store** (Android) or **Apple Store** (iOS) and search **BT PRO SetApp**.

STEP 3: SMARTPHONE AND INTERCOM DEVICE CONFIGURATION

ANDROID OPERATING SYSTEM	
	<p>Enter in Setup mode Status: unit off</p> <p> Steady red led</p>
	<p>Pairing to a phone</p> <p> Red/blue led blinks</p>
	<p>Searching the Bluetooth device on your smartphone/ GPS (if required enter PIN code 0000).</p> <p> Blue led on for 1 sec</p> <p>Pairing successful</p>
	<p>Once the pairing is complete, you have 2 minutes of time to click on the BT Pro SetApp icon and select your device from the list; then you can configure your Midland unit from the APP.</p>

iOS OPERATING SYSTEM	
	<p>Power ON</p> <ul style="list-style-type: none">  Blue led blinking  Sound alert  Operative mode status
	<p>From the turning on of the intercom device, you have 2 minutes of time to click on the BT Pro SetApp icon and select your device from the list; then you can configure your Midland unit from the APP.</p>
<p>Attention: in case the 2 minutes already expired, turn the unit off and on again. you will still have the 2 minutes of time to open BT Pro SetApp and make the first configuration between App and intercom unit.</p> <p>Once this procedure is done, it is no more needed to open the App within 2 minutes.</p> <p>The pairing with the App will be shown in the list of the Bluetooth connections in your smartphone. In case the phone has been paired also for the audio, the pairings with Midland will be two.</p>	

Attention: in case the 2 minutes already expired, turn the unit off and on again. The BT device will automatically pair to your phone and you will still have the 2 minutes of time to open **BT Pro SetApp** and make the first configuration between App and intercom unit.

Once this procedure is done, it is no more needed to open the App within 2 minutes; it is also possible to pair another device on **Vol+** (TFT/GPS/another phone) or to pair the phone also for the audio.

The pairing with the App will be shown in the list of the Bluetooth connections in your smartphone. In case the phone has been paired also for the audio, the pairings with Midland will be two.
